

PITTSBURGH

SYMBOL STAMPS

For Confidential Marking

The inspector's O. K. on tools and machine parts, the private marks that identify them, must be clean cut and legible.

Special attention to the demands and necessities of symbol marking has led us to develop our line of Pittsburgh Symbol Stamps; carefully cut tools with strong stubby bevels that insure durability, in a variety that gives wide choice for every purpose without danger of duplication.

The cuts shown are samples chosen from our circular. If you use symbol stamps - look it over.

PITTSBURGH STAMP COMPANY, Inc.
